

# MONARK FIRE LLP

— FIRE PREVENTION IS OUR INTENTION —

IT ONLY TAKES ONE MISTAKE TO BRING US ALL DOWN;  
DON'T LET IT BE YOURS!

**FIRE FIGHTING EXTINGUISHERS**

**FIRE HYDRANT & SUPPRESSION SYSTEMS**

**FIRE DETECTION AND ALARM SYSTEMS**

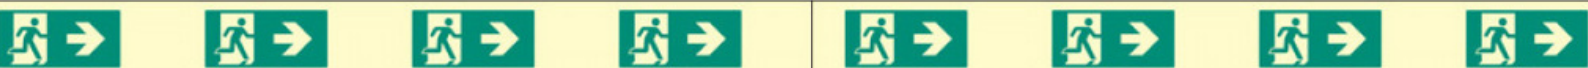

**SYSTEM MAINTENANCE & AMC SERVICE**

**FIRE TRAINING & EVACUATION DRILLS**

**PROJECT CONSULTANCY AND DESIGNING**

**FIRE ESCAPE ROUTE MAPPING/DESIGNING**

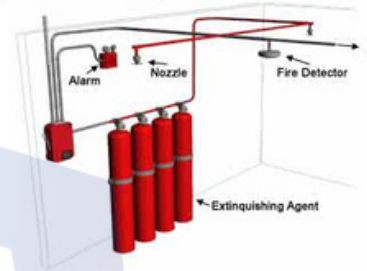

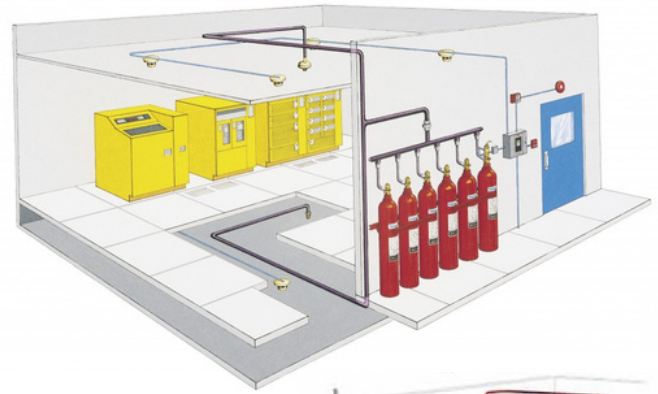

**FIRE SAFETY & EXIT SIGNAGE**

# FIRE SUPPRESSION SYSTEM

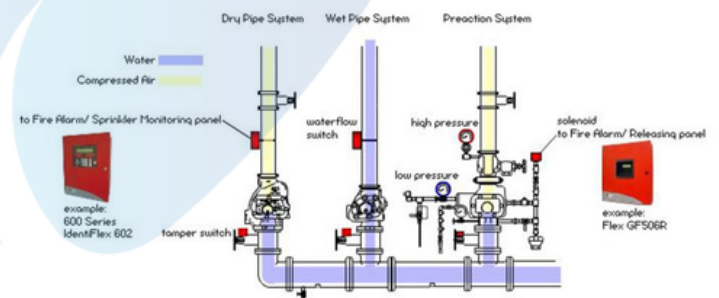

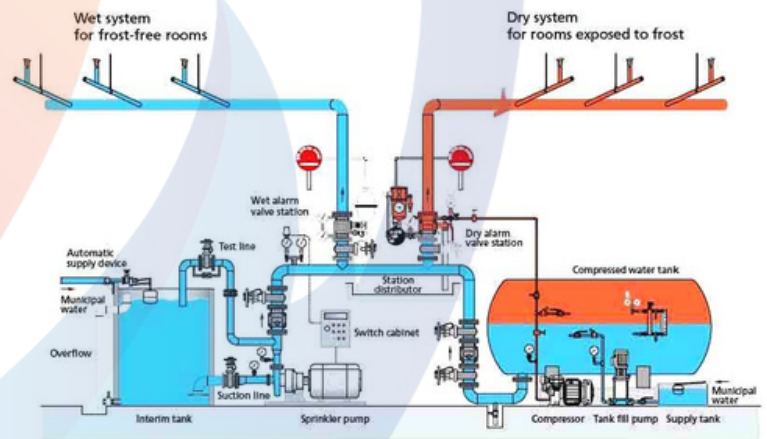

"A local application system consists of a fixed supply of Carbon-Dioxide / Clean agent Gas / Water Mist normally connected to fixed piping with nozzles arranged to discharge the extinguishing agent ( Carbon-Dioxide/ Clean Agent Gas / Water Mist) directly onto the burning material."

And also we provide solutions for complete range of Fire Detection and Alarm, Fire Hydrant, HFC 227 ea, Foam Extinguishing System, H.V. / M.V. Spray System, etc.

# AUTOMATIC FIRE SPRINKLER SYSTEM

"The Electromatic Deluge System uses an electric fire detection system installed in the same area as open sprinklers or spray nozzles. Upon sensing a hazard, the Electromatic valve opens deluging and the entire protected area with water. This valve is used in high hazard areas where an extremely fast response is required."

# FIRE FIGHTING EXTINGUISHERS

The proper placement and use of portable fire extinguishers is a critical component of an effective fire protection program. Our team is trained and qualified to evaluate potential fire hazards before recommending the proper type, size and placement of fire extinguishers required to satisfy fire code requirements. We offer these evaluations without obligation, assuring prompt delivery from our well stocked warehouse. Our Extinguishers conform with the Standards and for more information on the specifications of each type of certifications etc.

Please Check out our details Fire Extinguishers Catalog or contact us (info at the end)

## TYPES OF FIRE FIGHTING EXTINGUISHERS

ABC STORED PRESSURE & CARTRIDGE TYPE

BC STORED PRESSURE & CARTRIDGE TYPE

CARBON DIOXIDE (GAS) & TROLLEY MOUNTED

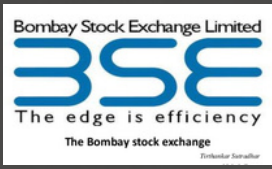

CLEAN AGENT STORED PRESSURE & MODULAR TYPE

WATER STORED PRESSURE & CARTRIDGE

MECHANICAL FOAM STORED PRESSURE & CARTRIDGE TYPE

HIGHER CAPACITY TROLLEY MOUNTED (WATER/AFFF FOAM / DRY POWDER TYPE)

# Protecting our environment

*CFCs, Halons, and other chemicals are destroying the vital ozone layer that protects us.*

Our Fire Protection Systems feature non-ozone depleting clean agents, providing our customers with the fire protection they need while still protecting the earth's precious ozone layer.

With no ozone depletion potential, extremely low global warming potential and short atmospheric lifetime, the majority of our protection systems offer viable, long-term and sustainable technology for all classes of fires and especially special hazards fire protection.
